

NRC Completes the Acquisition of Specialized Response Solutions

Description

For Immediate Release

New York National Response Corporation (NRC) announced today the completion of the acquisition of Specialized Response Solutions (SRS).

NRC is the leading commercial provider of United States Oil Pollution Act of 1990 regulatory compliance and emergency response services as well as a global provider of diversified environmental, industrial, and emergency response solutions. Headquartered in Great River, NY, with regional offices throughout the U.S. and internationally, NRC has approximately 910 employees.

SRS is a leading provider of emergency response, firefighting, specialized equipment fabrication, training, and other specialized response services primarily for the rail and industrial chemicals industries. The Company is headquartered in Fort Worth, TX and will continue to provide the services and support to its customers' needs with the added resources of NRC. SRS will operate as a branch office under NRC's Environmental Services West division.

Robert Breed, President of SRS, reported, "This new relationship between SRS and NRC is beneficial to both our employees and the customers we have serviced over the years. The combined resources of SRS and NRC will create opportunities for future growth in our relationships with our valued clients and our staff. We are very proud to be a part of such a great organization, and look forward to adding our unique and specialized services to such a well-established, but also growing company."

About NRC
