

HURRICANE SEASON IS HERE.

ARE YOU PREPARED?

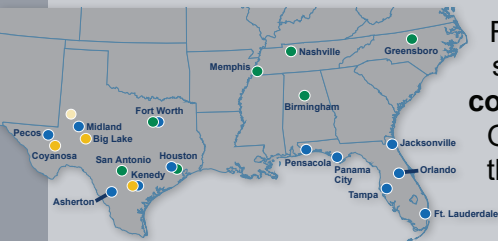

NRC

THE #1 NAME IN DISASTER RESPONSE & CLEAN-UP FOR OVER 25 YEARS IS ON STANDBY

With fully outfitted, stocked, and staffed service centers throughout the Gulf Coast, NRC is on standby and ready to provide cost-effective, safety-driven and comprehensive disaster response and relief services to all affected areas.

It is our mission to bring customer care back to the service industry. Our environmental professionals strive to exceed expectations by going above and beyond and offering support to clients every step of the way through each response event and project. With NRC, you can rest assured that the best available and most appropriate resources are being mobilized to each event, and will be on site faster than any other environmental firm.

The most reliable & experienced environmental firm — on the front line in the aftermath of every hurricane and natural disaster across the U.S.

From strategically located service centers, NRC provides **complete coverage** for the Gulf of Mexico coastline and the entire state of Florida with its own internal resources.

Having rooted ourselves in

the region for the past 3 decades, we are no strangers to natural disasters and other catastrophic events. Our seasoned personnel have helped thousands of customers in the wakes of some of the most disastrous storms ever to hit the Gulf Coast and Southeast, including Hurricanes Ivan, Katrina, Rita, Wilma, Harvey, Irma and Michael.

Furthermore, NRC is backed by our respected ICN — the nation's largest network of fully-vetted and contracted firms specializing in emergency and disaster response services — on standby with vast manpower and equipment resources ready for deployment.

Whatever type of emergency, wherever the location, whatever the hour — **we've got you covered.**

PERSONNEL YOU TRUST. EXPERTISE YOU DEPEND ON.

Every year, NRC's crews successfully manage more than 7,000 environmental emergencies and disaster response operations. Our staff consists of industry-leading response personnel and environmental specialists, with unmatched qualifications and field experience.

Trusted by more state and federal agencies than any other national emergency response provider.

NRC's regulatory experience and resulting relationships are unmatched. Our Response Managers and crew personnel have decades of experience working alongside local, state and federal agencies and have the expertise needed to ensure all work is done in full compliance with OSHA, RCRA, EPA and DOT regulations.
